

SOUTH FLORIDA WATER MANAGEMENT DISTRICT - ENVIRONMENTAL ANALYSES & PERMITTING SUPPORT FOR THE CERP

Client Name: *South Florida Water Management District/Parsons Brinckerhoff (Prime)*

Type of Service: *Environmental Analyses & Permitting Support for the CERP*

Milian, Swain & Associates, Inc. (MSA) provided professional services to assist the South Florida Water Management District (SFWMD) in conducting environmental analyses, planning and permit-related activities related to the Comprehensive Everglades Restoration Plan projects. These services included the following:

Provide Program-Level Support of CERP Project Delivery Teams - Assisted the South Florida Water Management District in the development of an inventory of all applicable permit requirements associated with implementation of CERP projects. Prepared monthly implementation reports summarizing the professional services provided and developed an inventory of permit-related issues.

Develop a Generic Environmental Planning Tool for CERP Project Management Plans - Developed generic environmental planning tool to guide the South Florida Water Management District CERP project managers through the various regulatory permitting agencies. The final product was a flow chart that guides the project manager through the permitting, identifies the permits required, the data required for the specific permit and the expected time required to secure the permit.
